1. Introduction

Welcome to **_BuzzNet_**, a social media platform designed for sharing text-based posts and interacting with others in real time. This user manual will guide you through the key features of **_BuzzNet_**, including registration, content creation, interactions, and account management.

Key Features:

- **Registration & Login**: Create an account and log in securely.
- **Post Management**: Delete your own posts, and view others' posts.
- **Interactions**: Like and comment on posts.
- **Security**: Role-based access control ensures secure interactions.
- **Moderation**: Administrators can delete inappropriate content.

2. Getting Started

2.1 System Requirements

- **Supported Browsers**: Google Chrome, Mozilla Firefox.
- **Operating Systems**: Windows, Linux, or Android (released within the last 5 years).
- **Language**: English only.
- **Screen Resolution**: Optimal at 1920 x 1080.

2.2 Registration

Steps:

1. Go to the BuzzNet registration page.
2. Enter a unique username, valid email address, and password.
3. Click **Submit**.
4. Your account will be created!

Notes: If your username is already registered, you will be prompted to choose a different one.

2.3 Login

Steps:

1. Go to the BuzzNet login page.
2. Enter your username and password.
3. Click Login.

Troubleshooting:

- **Invalid Credentials**: Ensure your username and password are entered correctly.
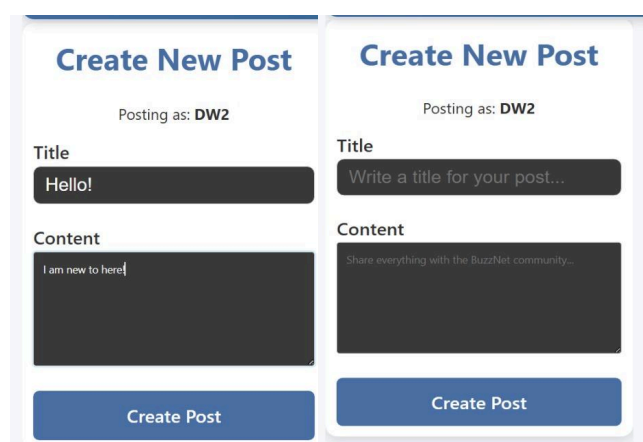

3. Core Features
